> Profile

Systems Developer with over **3 years of experience** in process automation, systems integration, and software development. Currently building **automation workflows, Chrome extensions, and internal tools** at Jenny Internet — automating ticket handling, file management, and network operations for 60+ corporate clients nationwide. CompTIA A+ and Network+ certified with a Diploma in Information Technology in Systems Development. Previously delivered network setups, infrastructure design, and technical support for clients including Ackermans, Pick n Pay, Builders Warehouse, and more. Passionate about automation, embedded systems, and eliminating busywork.
